

GranTeach — Speaking KPI Dashboard (v4)

Version: 2025-10-15 | Language: EN | License: Classroom use

Quick Start

- Choose ONE focus per activity (Fluency / Accuracy / Complexity).
- Use the 60-second Mini-Rubric while the learner speaks.
- Log two KPIs per session (Avg continuous secs; Support moves).
- Use Peer Cards to collect evidence + suggestion in <=20s.
- Update the Weekly Trend Log; decide based on TRENDS.

60-second FAC Mini-Rubric (A2–C1)

Level	Fluency	Accuracy	Complexity
A2	30–45s flow; short pauses ok.	Basic tenses; some meaning-changing errors.	Simple clauses; few connectors.
B1	45–60s; meaningful pauses.	Better control of past/present.	Some subordination; basic markers.
B2	~60s sustained; natural repair.	Generally accurate; meaning intact.	Varied clauses; wider markers.
C1	60s+ with natural prosody.	High control; rare errors.	Flexible structures; advanced markers.
